Value Statement

Specialised Welding & Engineering

Vision

To be a key partner throughout the NT for the Defence, Mining and Energy Industries. We will continue to grow and strengthen our company through;

- **Our People**: We are a place where people want to work and are inspired to be the best they can be
- **Being Productive**: We are a highly efficient, motivated, and effective company
- **Building Partnerships**: We nurture and sustain a valuable network of customers and suppliers
- **Sustainable Growth** : We maximise our efficiency and profitability in order to support the company's growth and development
- **Innovation**: We embrace a multi-faceted approach to innovation and continuous improvement

Mission

To design, build, enhance and maintain our customers' operations by providing innovative engineering solutions that are safe, reliable, and cost-effective.

> Everything we build - from relationships to engineering products, we build with an uncompromising commitment to creativity and a passion for excellence

Our Core Values

Leadership

Our leaders are ethical, visionary and lead by example

Quality

We aim for excellence

Safety

Safety is critical

Teamwork

We believe a team thrives when people are united and everyone's contributions are valued

Customers

We seek to understand our customer's needs, to build partnerships and to identify how we can best deliver value.

Business Improvement

We believe in continuous improvement and innovation for long term sustainability

Integrity

We prioritise the company's reputation and integrity, even if that means saying no
