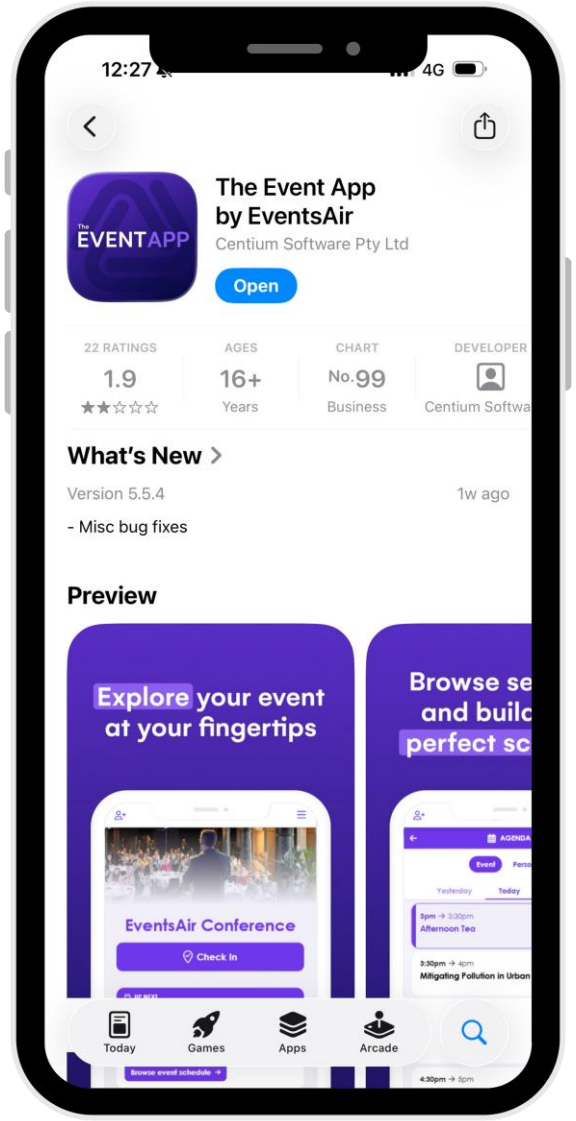
How to use the event app



To download the app search '**events air**' in your phone app store, use the QR codes on this page or visit the event app page on the conference website.

Download on the App Store

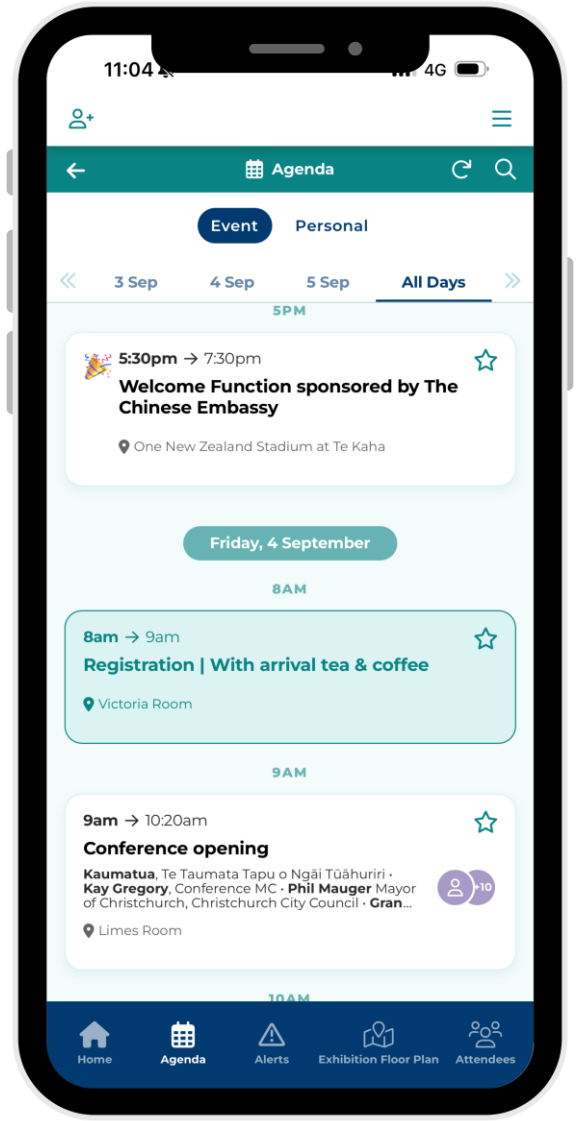
GET IT ON Google Play

Once downloaded,
enter the event code: **GCNZ2026**
then click submit

If you've used the app previously,
you may need to log out first

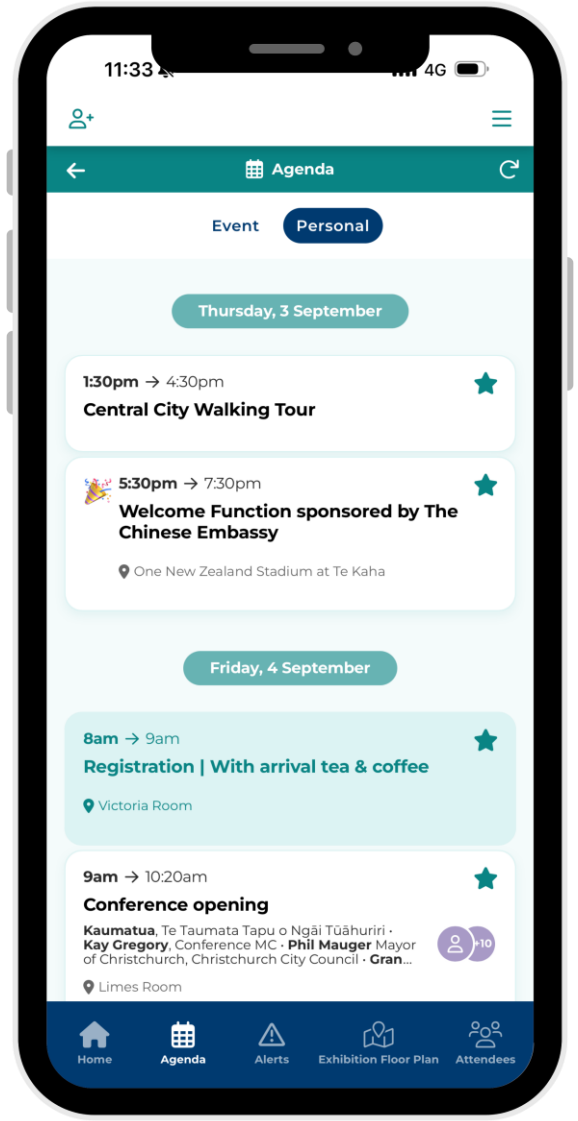
When the app opens, press Log In,
then enter your email address and the
6-digit App PIN sent to you

If you can't find your App PIN
visit the registration desk for help



Agenda

See the full programme in detail. Clicking on each session gives more information.



Agenda

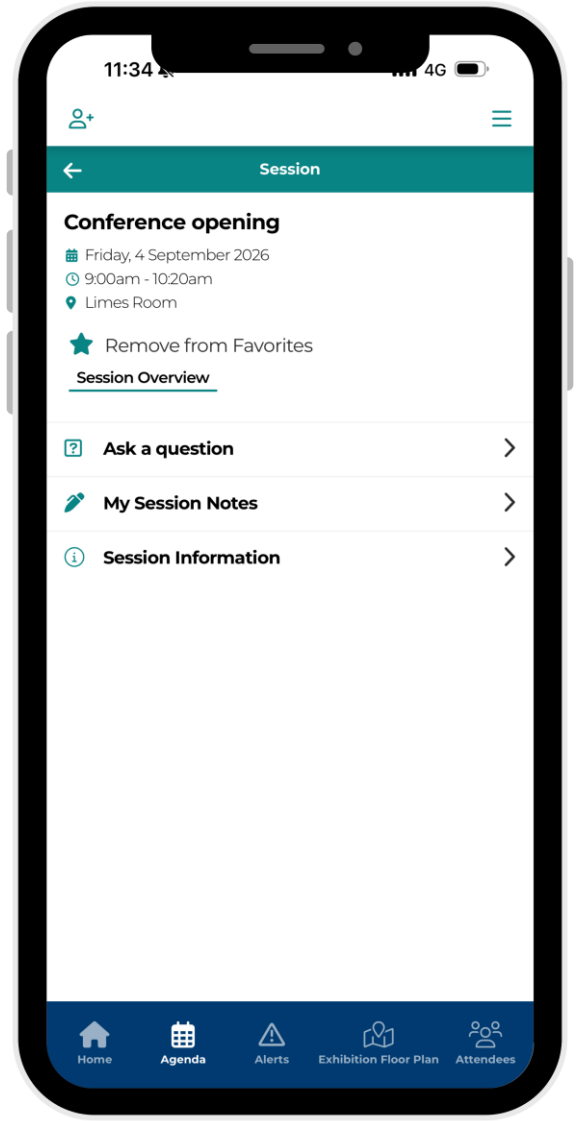
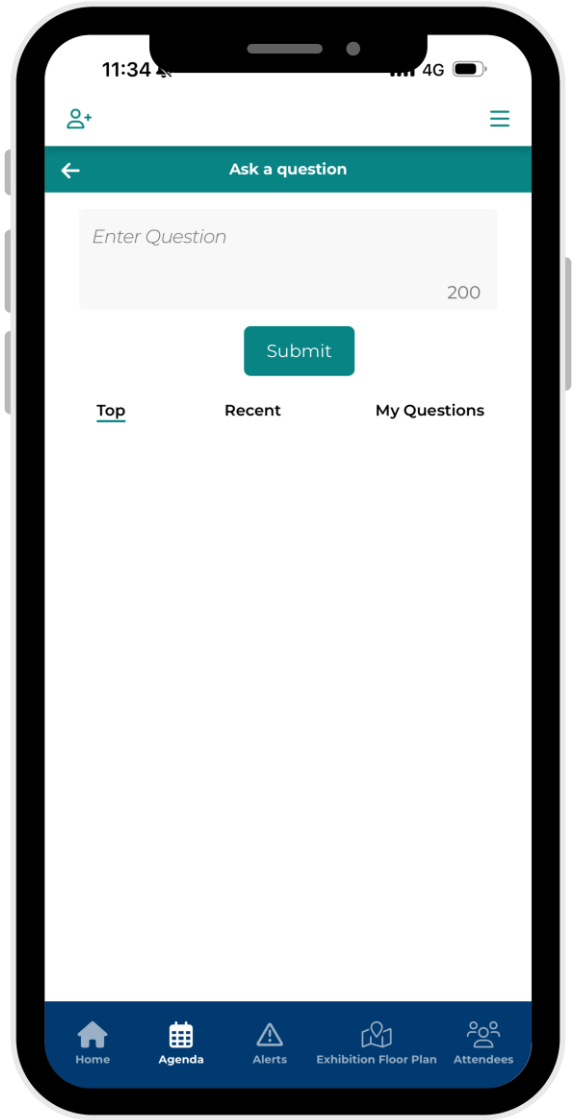
My Agenda

Don’t want to miss a session? Click the star icon to save it to your personalised agenda and see what’s up next on the home screen of the app.



Session

Clicking on a session will give you options to Ask a question (if enabled), Session Notes, Handouts and Session Information.



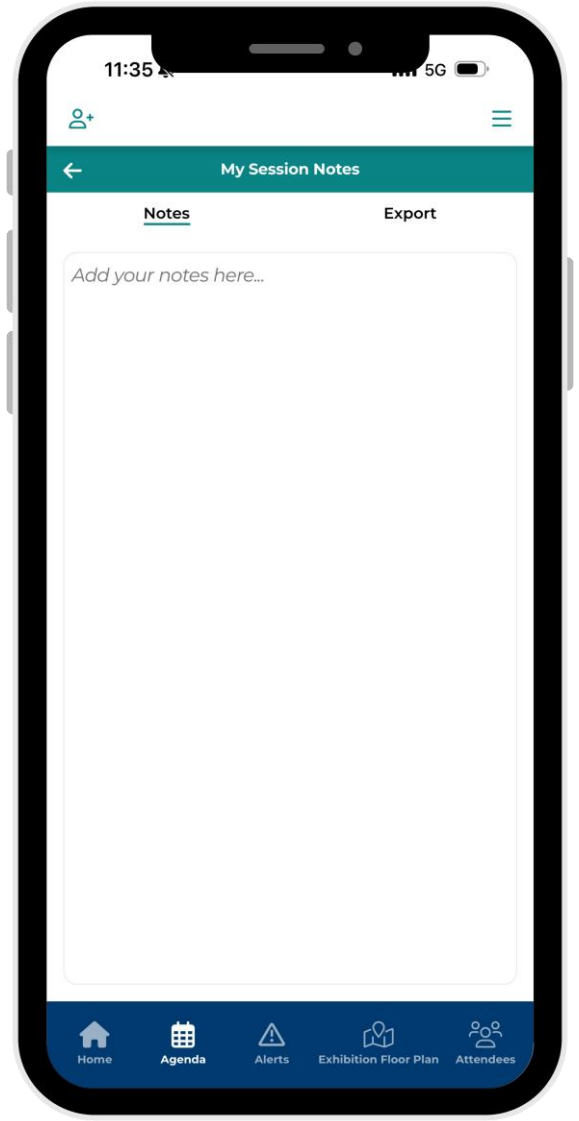
Session

Clicking on a session will give you options to Ask a question (if enabled), Session Notes, Handouts and Session Information.

Ask a question

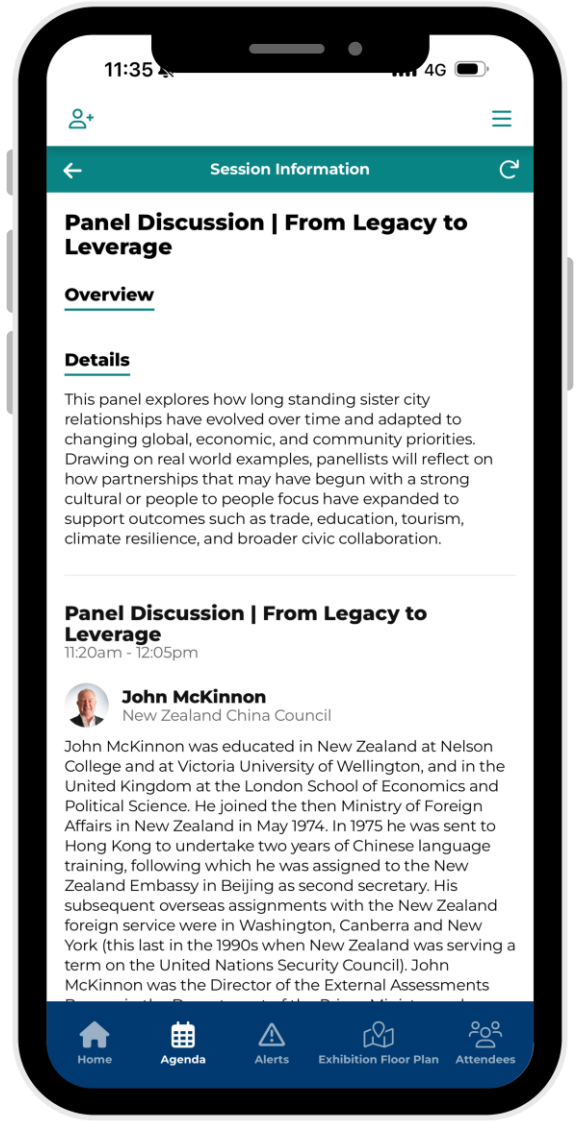
If Q&A is enabled for the session, click **Ask a question.** Type in your question and click submit.

As the session is moderated you will not be able to see your question displayed publicly until it has been accepted by the moderator.



My Session Notes

Take notes in sessions or through out the conference and export them for yourself later.

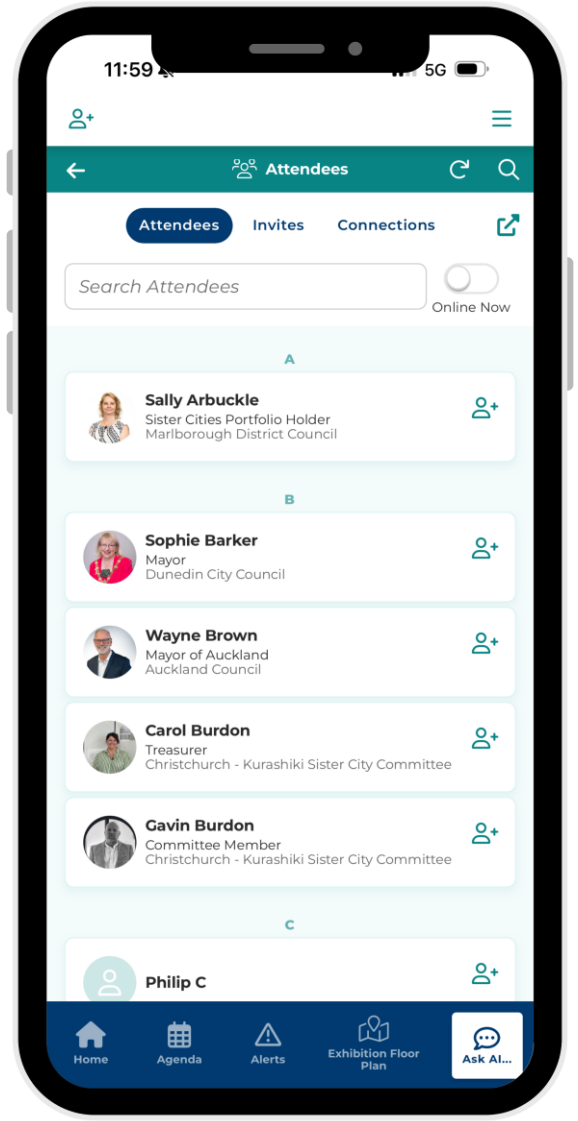


My Session Notes

Take notes in sessions or through out the conference and export them for yourself later.

Session Information

Click on Session Information to see all presenters, their presentation titles and bios.



Attendee Search

Your full networking platform to search for, and connect with, other attendees.

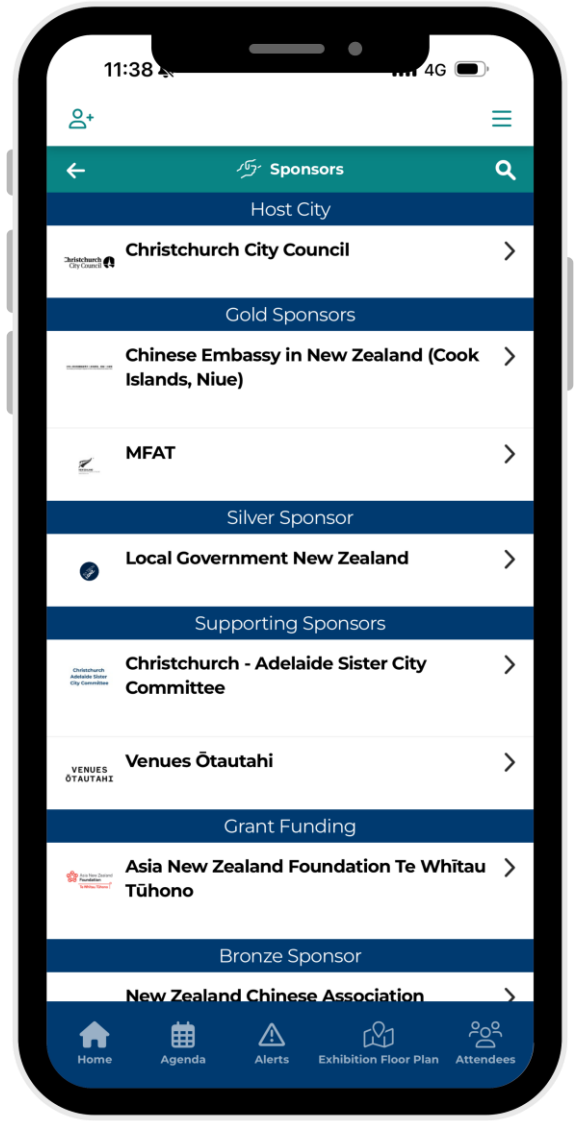
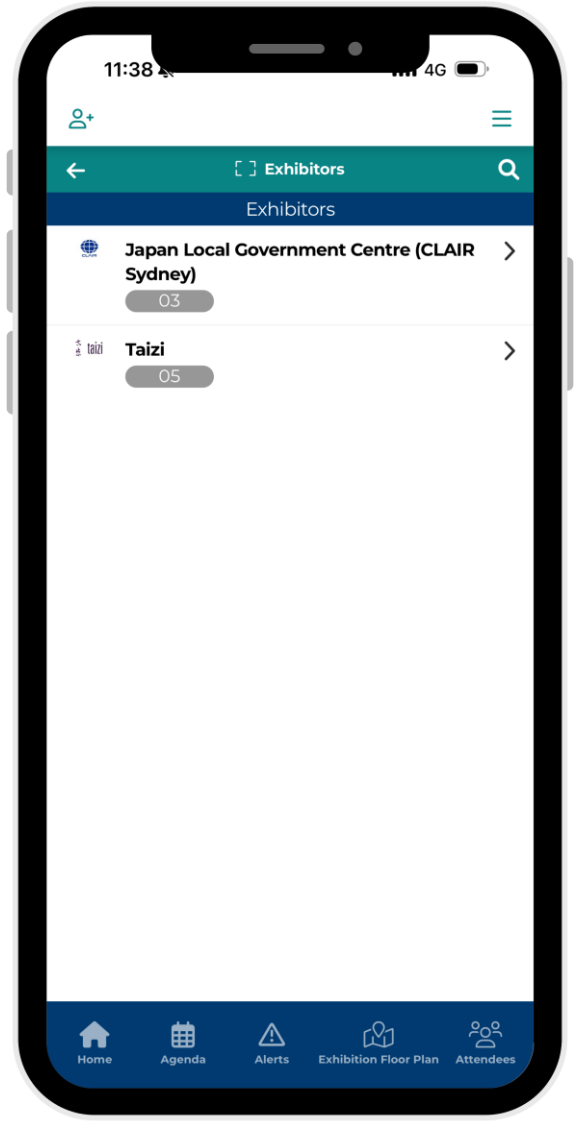
Quick Connect

Click the person icon in the top left menu bar to connect with other delegates quickly. Share your QR code or scan theirs.



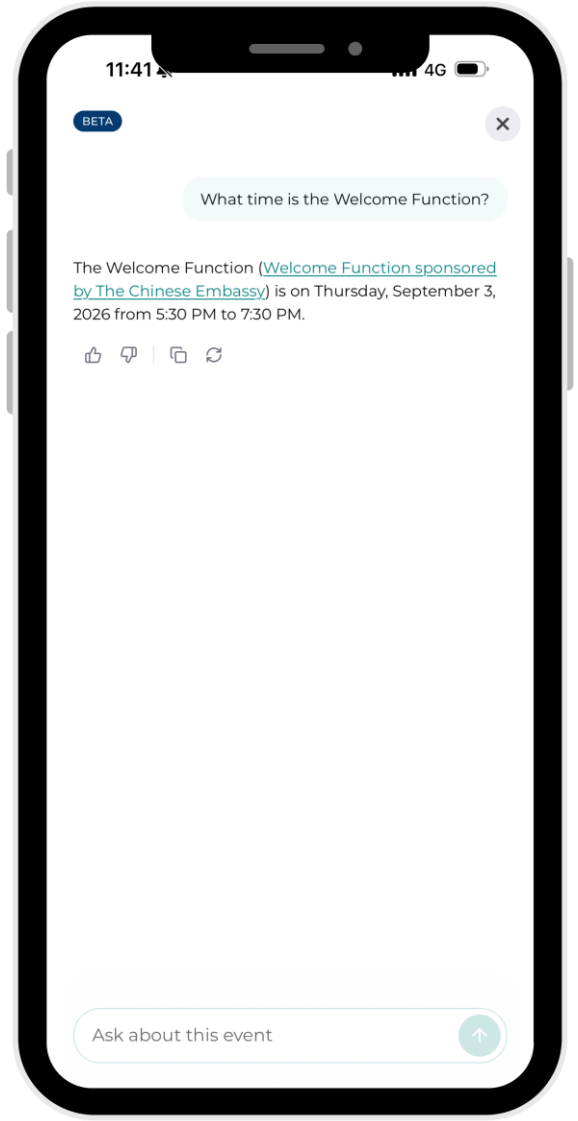
Sponsors

Click on each sponsor to learn more.



Exhibitors

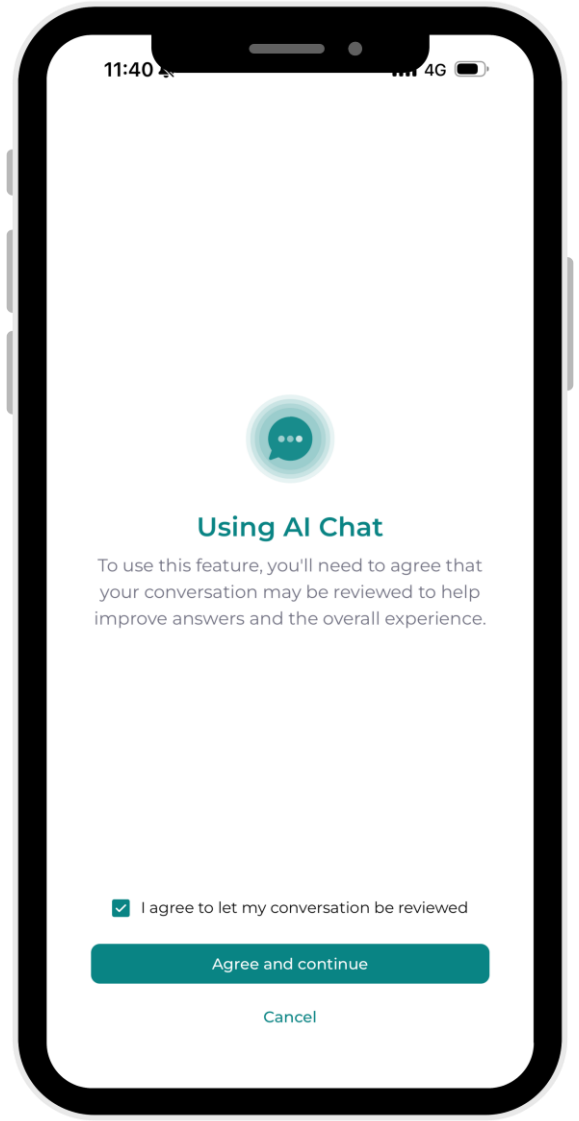
Click on each exhibitor to learn more.



AI chatbot (beta)

We've enabled a beta AI chatbot in the app. It can answer basic event questions like what's the next session or give you speaker info.

Just click **Ask Ai..** at the bottom of the home page to get started



AI chatbot (beta)

We'd love your feedback after the conference but there are a couple of things to note:

- It's in public beta, so it may change as it gets improved
- Your chat is used to improve the Assistant (you'll be asked to consent).
- iOS 16.4+ or Chrome 62+ is recommended; older devices may have display issues.

There are a number of other things you can do in the app – from checking out the exhibition floorplans, to finding info about transport and getting in touch with the conference team.

Have a good look around the app and let the event team know if you have any questions or feedback!
