

# ENDODONTIC SPECIALTY

Dr. Batniji & Associates

[www.endodontic.net](http://www.endodontic.net)

## Dr. Batniji Study Club

In Collaboration with EMAD AMMAR, DDS Periodontics & Implants

Three (3) Continuing Education Units will be awarded  
at the conclusion of the lecture. There is no fee to attend.

THURSDAY, November 6, 2025, 6:00pm - 9:00pm

VENUE: Diamond Bar Center 1600 Grand Ave Diamond Bar 91765 (909)839-7070

### PREVENTION & MANAGEMENT OF PROSTHODONTIC COMPLICATIONS IN OSSEOINTEGRATED DENTAL IMPLANT TREATMENT

Implant treatment is known to be safe with high clinical success. However, surgical and prosthodontic complications do occur, and many have been identified in the literature. Clinicians must be acquainted and competent in handling the complications that may present to their private practice. Complications can range from prosthetic problems deriving from misalignment of implants, prosthesis related complications, component fractures and many others. This presentation reviews the literature regarding prosthetic complications in implant dentistry with an emphasis on the management of such complications.

#### ***LEARNING OBJECTIVES:***

1. Provide an overview of the most common complications in implant dentistry.
2. Review the literature regarding prosthetic complications reported in conjunction with implant dentistry.
3. Present cases with prosthodontic and surgical complications and their management.

#### **SPEAKER: Nadim Z. Baba, DMD, MSD, FACP**

Dr. Baba received his DMD degree from the Université de Montréal in 1996. He completed a Certificate in Advanced Graduate Studies in Prosthodontics and a master's degree in Restorative Sciences in Prosthodontics from Boston University School of Dentistry in 1999. Dr. Baba serves as a Professor in the Advanced Education program in Implant Dentistry at Loma Linda University School of Dentistry, an Adjunct Professor at the Boston University Goldman School of Dental Medicine department of Restorative Sciences and Biomaterials, and maintains a part-time private practice in Glendale, CA.
