

HAERE MAI KOUTOU!

# WOMEN IN COLLISION REPAIR

*This initiative aims to encourage diversity within the Collision Repair industry through the support, development and recruitment of women into the Panel Beating and Automotive Painting trades in New Zealand.*

We seek **women** who are:

- ✓ New Zealand based
- ✓ Want a trade career
- ✓ Want to make, create and work hands-on!
- ✓ Have a passion for cars
- ✓ Have a great attitude and willingness to get stuck in!

We can support **schools** by:

- ✓ Connections for Gateway and work experiences
- ✓ Support industry participation in Career events and activities
- ✓ Support student transitions to employment, with embedded pastoral care
- ✓ Online student meetings for programme and industry information

**We would love to chat to any women interested in exploring our industry, and can be flexible to the needs of the individual and their school**

*If you think this sounds like you or someone you know, connect with the Women In Collision Repair team today!*
