

Reducing Barriers in Participation

Maple Leaf Cavan FC is an unpaid volunteer run organization who continuously strives to ensure we offer the most cost effective soccer program within our local area. While we continue to offer complete programming from recreational “house league”, LTPD, and Competitive divisions at a lower price than any other local organization, we understand that youth sports is out of reach for many of our community members.

Each year we assist parents and guardians with completing financial program applications from Canadian Tire Jumpstart and Kid Sport Canada. Prior to the start of the application process, we register the player(s) for our program(s) at no cost to secure their spot. In situations where they are denied financial assistance from the previously mentioned organizations, Maple Leaf Cavan FC covers the player(s) costs to ensure everyone can play soccer. In situations where the family would not be eligible for either of those programs due to household income guidelines, MLCFC has covered the player fees ourselves using funds from our corporate sponsorship program.

As an organization that fully embraces and supports LTPD ideologies, we welcome players of all abilities who seek a more competitive environment beyond recreational house leagues. Sports such as soccer, serve as excellent therapy for everyone and are widely recommended by families and doctors for children with neurodiversity, creating a perfect synergy.

MLCFC continues to strive to remove all barriers from the beautiful game.
